KYZEN Receives Third Award Since Introduction of New AQUANOX A4727 Cleaner

NASHVILLE — April 2019 — KYZEN, the global leader in innovative environmentally friendly cleaning chemistries, is pleased to announce that it was awarded a 2019 EM Asia Innovation Award in the category of Cleaning Materials for its AQUANOX A4727 Next Generation Aqueous Assembly Cleaner. The award was presented to the company during an April 25, 2019 ceremony at the Shanghai World Expo Exhibition & Convention Center during NEPCON China. This is the third award that the company has received since the launch of the cleaner in January of 2019.

"KYZEN prides itself on continuous improvement and innovation," said Tom Forsythe, Executive Vice President of KYZEN. "AQUANOX A4727 is the latest in a long line of KYZEN AQUANOX products that have brought new levels of performance and value to the industry. Improving the value we deliver to our global customers is the goal of every product development effort, and AQUANOX A4727 sets a new bar with improved performance, particularly the all important aspect of rinsing, along with very attractive economics."

AQUANOX A4727 is engineered to be effective, stable and predictable, all day, every day. It is designed for reliable production and assembly operations. Meet your performance cleaning requirements with advanced technology that gives a stable pH and predictable compatibility throughout its long bath life.

AQUANOX A4727 is the result of thousands of hours of laboratory tests and "live" beta site testing scientifically validating the outstanding RINSABILITY, extended BATH LIFE and consistently reliable, long-term PERFORMANCE advantages. This stable chemistry is proven to be compatible on a wide variety of components, coating, labels and equipment.

Environmentally responsible, AQUANOX A4727 is non-hazardous and biodegradable. It contains no CFCs or HAPs and can be used at low concentrations to effectively remove even the toughest soils, and rinse easily and completely. This easy to control and cost-effective solution is a good choice for both in-line and batch cleaning systems.

Established in 2006, the EM Asia Innovation Awards program strives to recognize and celebrate excellence in the Asian electronics industry, inspiring companies to achieve the highest standards and push the industry forward.
